Okay, thanks. as for the descriptors for the graphics, just grab text from the document or even your PPT that described them.

e.g., this is a graphic depiction of Adjacent wetlands Option C1 which shows the USACE retaining permitting authority over those wetlands that physically touch the retained water up to a predetermined administrative line.

If you go to the web, I added text for the graphics in the PPT that I posted. Look under meetings tab - May 10th meeting. I think for the final report nicer language than what I put in is probably called for but it gives you an idea. - Kathy Oh here is the PPT so you can find it and see what I mean. - Kathy

Kathy

The schedule was in the version I had (not exactly a brilliant justification), so would prefer to leave that in. The last step that CSRA needs to do is the 508 compliance. That they are working on, including me asking Michael S to do the narratives of the wetlands graphics. I'll check in on the status of the 508 compliance step right now.

It was in the appendices', I think it got attached to the proposed charter. It is not actually the charter it was a proposed schedule. Your call.

BTW, I trust this report and all the graphics are 508 compliant, meaning all tables, photos, charts, graphics have titles as well as descriptions as to what they are depicting.

And I could not tell from here, but the photos need to be credited with the photographer for rights purposes. even if it is stock photo as the credit.

thanks and have a good weekend, Kathy

To be clear, where in the report are you referring to?

So why do you have the proposed schedule in there instead of the list of the actual meetings? Maybe put a note in there when the meetings actually occurred. Not sure the proposed meetings are even needed but it is the subcommittee's choice. - Kathy

All

Here's the formatted report. I reviewed this once or twice and it should be ready to go to the Subcommittee for a final look, but any comments before we send it to them (and if can go to the Administrator if it needs to as is).

Attached is an updated PDF with the reference and the photos updated. I am going to respond to your email to Kim about the images to include the one I just used for Appendix B if you are okay with that.
